

I value my time and privacy. I do not pay for a phone line so a telemarketer can call me from sunup to sundown to hawk their wares. The banks are only interested in the credit card business that that they recieve from these calls and not right to privacy that I am entitled. Please do nothing to change the do not call list in Indiana. Anyone who wishes to recieve these calls can stay off this list and recieve all the rude,irritating,during mealtime calls they wish. As for me:
Do not call!!
